

PLANNING IN SOUTHERN YUKON **DRAFT**

Wednesday, December 14, 2011

Yukon Land Use Planning Council Board Room, Whitehorse, Yukon

Participants:

Yukon Land Use Planning Council: Ron Cruikshank, Gerald Isaac, Sam Skinner

Yukon Government: Randy Lamb, Jennifer Muerer

Kluane First Nation: George Johnson; Champagne/Ashihik First Nation: Roger Brown
Kwanlin Dun First Nation: Jennifer Lee; Ta'an Kwach'an Council: Simon Lapointe;
Carcross/Tagish First Nation: Frank James, Miles Johnson; Teslin Tlingit Council: Brenda
Oziewicz; Little Salmon/Carmacks First Nation: Ed Schultz

A. FURTHER WORK REQUIRED

1. Southern Yukon Technical Working Group (SYTWG)
 - Develop Terms of Reference (TOR) by January 14, 2012: *done by YLUPC based up YG's draft*
2. What is the role of Kaska in the Teslin Regional Planning Commission?
 - Requirement to consult or to seek consent on planning boundary within their traditional territory? *YLUPC to contact YG EMR/LCIS about this issue. TTC to bring this intent to the attention of Chief and Council;*
3. Check the title holder of the trap line concession in the vicinity of Carcross Tagish First Nation, S-4b (1) *done by YLUPC;*
4. confirm that the "secondary area" between Kluane First Nation and White River First Nation is to be included in the Kluane planning region *done by YG/LCIS;*
5. YG/LCIS are to determine and advise Kluane First Nation and Champagne/Aishihik First Nation of the WRFN role or position in the Kluane regional planning process;
6. The Parties (YG/TTC) are to check and determine the true demographic ratio for the Teslin planning region and to revise TRPC's new Terms of Reference, membership section accordingly. *Note: In 2004 (3TTC & 3 YG) In 2012 (4TTC & 2 YG?);
7. All Whitehorse/Teslin FNs (KDFN, TKC, CTFN) TTC to confirm with their superiors they have agreement on the TTC/Whitehorse boundary;
8. Ed Schultz to confirm with LSCFN several options and the preferred option for planning boundary in the KDFN & TKC traditional territories that would include their R-blocks and site specifics within LSCFN TT. CAFN/LSCFN follow-up with dialogue with each other. *Report back to YLUPC regarding boundary progress;*
9. Simon Lapointe to confirm the preferred option with TKC for a planning boundary with LSCFN including an option that maintains the biophysical integrity of the South Big Salmon River watershed.

B. GUIDELINES/PRINCIPLES TO CAPTURE R-BLOCKS, SITE SPECIFICS INTO PLANNING REGIONS OF RESPECTIVE YUKON FIRST NATIONS.

TESLIN AND WHITEHORSE PLANNING REGIONS

- Traditional Territory: default wherever possible
- Capture R-Blocks with primary planning region (eg.) TTC: R-Blocks with TTC region
- Split S-sites where possible
- Consider Trap line concession boundaries
- Consider watersheds & highway corridors or rights of way

C. PAN REGIONAL ISSUE (ADD)

- River/watersheds – adjacent zoning considerations
(Identify major watersheds for management purposes)
